Personalized Service

Resolution Technologies wants to bring personalized service back into focus. Our full-service technical staffing solutions are tailored to your needs and include:

- Contract
- Contract-to-hire
- Direct hire

Our technical recruiting team has the tools and experience necessary to source the best professionals in the business and bring them directly to you. We deliver a wide range of candidates with highly specialized skill sets and diverse technologies to help you secure the most valuable asset to your company's success – the people.

Efficiency 101

To demonstrate our dedication and commitment to you as a partner, we have created "Efficiency 101" to fully explain our screening process and commitment to excellence. We call our process Efficiency 101 because of the exceptional results produced by our two-to-one recruiter and account management ratio, our tireless attention to detail, and our full responsiveness to your unique timelines.

Our commitment to a true partnership shows. We pledge to:

- Provide pre-screened, committed candidates who have the skills you desire
- Offer only those candidates who fit within your salary range
- Ensure candidates fully understand your objectives and expectations

Whether your need is functional or technical, we tailor our screening process for each client to provide the right candidate for the job.

Staff Augmentation / Direct Hire Placement / MSP Partnerships (combined)

Staff Augmentation

Large IT initiatives sometimes require the support of qualified, reliable professionals at an affordable rate. We pride ourselves in providing the best IT contract staffing solutions to help companies gain a competitive edge.

Our team of recruiters are trained to find outstanding professionals in all IT niche areas. Partnering with Resolution Technologies for your short-term staffing needs means:

- Getting qualified IT professionals at competitive rates
- Sourcing from the best professionals around the country
- Gaining on-demand staffing capabilities
- Hiring staff for any part of the software development and/or project management lifecycles

Our professionals have expertise in application development, project management, testing, engineering, business intelligence, security, and enterprise architecture. Their experience spans a wide range of industries and skill subsets, so that you always get the right professional for the job.

Direct Hire Placement

Great direct hire placements come when agencies take the time to fully understand your company, your team dynamics, your corporate culture, and your priorities.

Our recruiters make sure they understand your company's mission, values, and strategy so that they find people who share your passion and long-term objectives. They then conduct in-depth candidate evaluations that include:

- A detailed personal interview
- Technical skills demonstrations
- Salary and employment verifications
- Full background checks
- Comprehensive reference checks

Our recruiting professionals extend the reach of your HR department using proven methodologies and an extensive referral network. Our goal is to streamline the hiring process and find critical talent when you have a difficult-to-fill position or your internal hiring team is overwhelmed.

MSP Partnerships

Managed Service Providers (MSPs) are the wave of the future and the capacity for ROI is enormous for the companies they serve. We support this model and act as a staffing partner to MSPs across the country, helping streamline and improve their contingent workforce operations.

We have partnerships with the following MSPs:

<will need more information about the MSP relationships they have in place>
