

Dr. Carol Anania of Fertility Solutions is a Boston Magazine 'Top Doc' For Fifth Consecutive Year

Dr. Carol Anania, Partner and Founder of Fertility Solutions, was recently named one of Boston Magazine's Top Doctors in 2015. This year marks the fifth year in a row for Dr. Anania, and solidifies her standing as one of the best doctors in Massachusetts.

"I am privileged to be able to work in a community of dedicated, talented physicians, nurses and staff," says Dr. Anania. "We're all working together to help those who seek our care and support."

Boston Magazine's annual Top Doctor accolade showcases the very best physicians in Boston and is compiled through a partnership with Castle Connolly Medical Ltd. Dr. Anania counts it as one of many achievements in the time since she helped open Fertility Solutions, which is a patient-centered fertility practice committed to providing leadership in modern fertility care.

"In the upcoming year we look forward to expanding services and treatments that incorporate cutting edge technology and maximize our ability to offer individual, personalized care," says Dr. Anania. "We are also leading the way in the adoption of more expansive and individualized genetic screening, which has continued to develop at a rapid pace, as well as egg freezing and fertility preservation."

Dr. Anania is double-board certified in Reproductive Endocrinology and Obstetrics & Gynecology. Her recent honors include listings in the Consumer Research Council of America's Guide to America's Top Obstetricians and Gynecologists, Super Doctors.com's selective list of "Super Doctors," and BestDoctors.com's Best Doctors in America. She is also a Clinical Assistant Professor at Tufts School of Medicine and is actively involved in teaching OB/GYN residents at the Boston University School of Medicine.

Dr. Anania's specialties include a wide range of reproductive problems such as treatment of ovulatory disorders, endometriosis, fibroids, hormone dysfunction leading to infertility, laparoscopic and hysteroscopic reproductive surgery, in vitro fertilization (IVF), tubal reversals and fertility preservation. She has supported countless individuals and couples through the fertility process as they work to achieve their goal of starting a family.

"The uncertainties that infertility brings can create great emotional upheaval," she says. "I want to understand all of my patients' concerns and help them experience the miracle of life. "

About Fertility Solutions

Fertility Solutions™ is a patient-centered practice that provides a full spectrum of infertility diagnosis and treatment. Founded by a team of female physicians with decades of combined experience, Fertility Solutions takes a uniquely personal approach to developing your fertility plan of care. The practice's board certified fertility specialists will work closely with patients to gain an understanding of their situation and present alternatives that fit each lifestyle and budget. Fertility Solutions offers a decidedly personal approach to fertility care, striving to help patients achieve their dreams through intelligent and affordable Fertility Solutions.
